

## **+ CAN MY DENTAL ASSISTANT COME TO YOU FOR TRAINING AND CREDENTIALING?**

YES. We train at our Stuart, FL location using manikins to teach each skill. We offer training for any or all expanded functions for the State of Florida. Our faculty/student ratio is 1:1 or 1:2.

Your dental assistant will register for the course(s) and we will work with the assistant to complete the online materials, prior to the training date. At the end of the training date we give your dental assistant the expanded function certificate listing each skill certified.

Courses are offered on a Friday or Saturday. All training dates will be verified prior to registration.

Each course contains a course description and the registered dental assistant will remain a part of efDA eLearning portal.

## **+ WHAT "HANDS ON" COURSES DO YOU OFFER?**

### **1) N2O MONITORING CERTIFICATION COURSE**

Dr. James Willis is our faculty dentist. The dental assistant will register and complete the online lecture and exam prior to the training date. Dr. Willis will go through the online materials and provide "hands on" training with the dental assistant. At the completion of the training the dental assistant will receive the Expanded Function certificate being certified in this skill.

### **2) ORTHODONTIC CERTIFICATION COURSE**

Reyna Ramirez is our Orthodontic faculty member. She currently practices as an Orthodontic Expanded Function Dental Assistant. Your dental assistant will register and complete the online lectures and exams prior to the training date. Reyna will go through the online materials and

provide "hands on" training utilizing orthodontic manikins. At the completion of the training the dental assistant will receive the Expanded Function certificate being certified in all Orthodontic skills.

### **3) RADIOGRAPHY CERTIFICATION COURSE**

Julie Mashaw is our expanded function faculty member. The dental assistant will register and complete the online lecture and exam prior to the training date. Julie will go through the online materials and provide "hands on" training with the dental assistant, utilizing a radiography manikin. At the completion of the training the dental assistant will receive the Expanded Function certificate being certified in this skill.

### **4) PREVENTIVE/RESTORATIVE CERTIFICATION COURSE**

Julie Mashaw is our expanded function faculty member. The dental assistant will register and complete the online lecture and exam prior to the training date. Julie will go through the online materials and provide "hands on" training with the dental assistant, utilizing a radiography manikin. At the completion of the training the dental assistant will receive the Expanded Function certificate being certified in this skill.

### **5) FABRICATION OF PROVISIONAL RESTORATIONS WITH RELATED FUNCTIONS CERTIFICATION COURSE**

Julie will go through the online materials and provide "hands on" training with the dental assistant, utilizing a manikin. At the completion of the training the dental assistant will receive the Expanded Function certificate being certified in this skill.

## ✚ HOW DO I FIND OUT WHEN THE HANDS-ON COURSES ARE OFFERED?

Contact Us and We Will Get Back with You.

## ✚ DO YOU HAVE A DENTAL ASSISTANT PROGRAM THAT CAN TRAIN MY NEW DENTAL ASSISTANT?

YES. Your dental assistant would attend five (5) consecutive training dates on a Friday or Saturday. We provide the training dates and schedule, prior to registration. We have a program beginning every other month. Your dental assistant will become credentialed in every expanded function for the State of Florida.

Content includes, but not limited to:

Dental Anatomy; Disinfection and Sterilization; Computer Usage;

Instrument Transfer; Mixing Materials; Florida Law;

General and Specialty Dental Procedures;

Radiography;

Fabrication of Provisional Restorations (5 skills);

Preventive and Restorative Expanded Functions (12 skills);

Nitrous Oxide Monitoring; and

Orthodontic Expanded Functions (6 skills)

After registration the dentist can work with the dental assistant to achieve clinical competence.
